Assessment method, forms and criteria																							
Assessment method			Exam																				
Assessment criteria			The Management Business Game aims at putting the theory into real business practice so that students can develop practical skills, understand the models of genuine enterprises, face future professional challenges and boost their spirit of entrepreneurship.																				

	Therefore, both before and in the course of the game, students are expected to demonstrate their involvement and interest in real business scenarios and their theoretical underpinnings.										
Course objectives											
1. Business games aspire to bridge the gap between theory in the classroom and companies’ realities.											
2. Familiarise students with the reality they will face in their professional lives. Business games are models of real enterprises.											
3. The best way to develop skills is through practice, i.e. trying, failing and correcting.											
4. All decisions made by the participants will affect their level of success.											
5. Students have to understand unfamiliar industries, grow expertise across-fields and build a team with people they do not know.											
6. The goal is to reveal a true passion for business in students!											
Learning outcomes											
Knowledge	MSG1_W07	Students have basic knowledge about people as individuals who have to cooperate, communicate and negotiate all the times to make economic decisions, operating in organizational structures, in particular in enterprises, and as individual entrepreneurs.									
	MSG1_W10	Students have basic knowledge about global economy and international economic relations.
