INTRODUCTION TO ECTS

The European Commission promotes co-operation between universities, having acknowledged its importance to the upgrading of the level of education and the students visits to study abroad (one or two semesters) are the dominant element of such co-operation. Indispensable requirement for the development of that form of education is full recognition of the period of studies abroad and foreign diplomas. For that purpose the European Credit Transfer System (ECTS) have been created.

The objective of ECTS system is to enable studying of students at the foreign universities (e.g. in the frames of SOCRATES programme) and exchange of students between Polish universities as well (e.g. in the frames of MOST programme).

Full acknowledgement of studies means that the period of studies abroad or at other Polish university (in this exams and other forms of evaluation) substitutes comparative period of studies at the mother university (in this: exams and other forms of evaluation). Using ECTS is based on the mutual confidence between co-operating universities and every university chooses its own partners for the co-operation. Introduction of the credit transfer system is the instrument which presents clear rules of carrying and assessment of studies abroad or at other Polish universities.

ECTS Credits

ECTS credits mean a certain figure related to the particular subjects on the basis of amount of work done by the individual student to pass the exam. Within the ECTS framework, the load of work in the whole academic year required from each student amounts for 60 credits, with recommendation to equal division for 30 credits in each semester.

ECTS credits relate to subjects, but are given those students who fulfilled requirements necessary to obtain the assessment of the subject. Students do not receive credits for the participation in classes but have to get assessment according to the evaluation criteria obligatory in particular university.

A.4. History of the faculty

The origins of the Faculty of Economics date back to the tradition of the Maritime Institute established in Warsaw in 1942 at the underground University of Western Lands and connected with the Polish Immigration Government in London. The Maritime Institute traditions were continued by: Higher School of Seaborne Trade (1945-1952), Higher Economic School (1952-1970), and at present Faculty of Economics and Faculty of Management at Gdansk University, established in 1993 after the transformation of existed in 1970-1993 Faculty of Transportation Economics and Faculty of Production Economics.

At the beginning, academic staff represented both specialists connected with Polish pre-war maritime economy and lecturers of higher schools. Among the most outstanding were Tadeusz Ocioszyński, Bolesław Kasprowicz, Władysław Kowalenko. Tadeusz Kwiatkowski was also one of the first lecturers. Its teaching programme was based on experience of western research institutions.

Faculty of Economics – up to 1993 year Faculty of Economics of Transportation – at the University of Gdańsk offers the university level of education and has full academic rights. There are about 3800 students (in this nearly a hundred of foreign students) every year at different specialisation and forms of studies at the Faculty.

In the beginning of October 2002, there were 142 academic teachers employed at the faculty, in this: 33 professors (22 extraordinary professors with a title, and 11 extraordinary professors UG), 43 associate professors, 20 lecturers with a PhD title, and 46 assistants.

B. Information about studies at the faculty

B.1. Forms of education at the faculty

There are the following types of studies at the faculty:

- ◆ 5-years stationary and 5-years extra-mural graduate studies (master degree),
- ◆ 3-years extra-mural graduate supplementary studies (with a master degree),
- ◆ 2-years extra-mural supplementary studies (with a master degree),
- ◆ postgraduate studies,
- ◆ doctorate studies,
- ◆ Interfaculty Postgraduate MBA Programme.

Stationary studies at the Faculty of Economics last 5 years (10 semesters). They are realised according to the plan of subjects based on the programme minimum for the specialisation of economics approved by the Main Council of Higher Education. **During the first two years**, the common programme is realised, embracing general education subjects (group A) and basic economic subjects (group B).

After the 4 semester students have the possibility of choice of one of ten specialisations:

- ◆ **international business**
- ◆ **marketing**
- ◆ **international finance and banking**
- ◆ **seaborne trade**
- ◆ **international market and global economy**
- ◆ **electronic business**
- ◆ **transportation and logistics**
- ◆ **European integration**
- ◆ **economic policy and entrepreneurship strategy**
- ◆ **economic diagnosing and functioning of enterprises**

Every specialisation has the limited number of places, and the basic criteria of admission are declarations of interested students in regards to particular specialisation and results achieved by them during the first two years of studies. A programme of studies at particular specialisation embraces subjects common for the whole Faculty and specialisation subjects (obligatory and facultative). Students with very good results have the right to study according to an individual programme.

The stationary studies at the Faculty might be supplemented with one semester or one year studies abroad within the frameworks of the SOCRATES programme.

Extra-mural studies at the Faculty have three forms:

- ◆ unified five years master degree studies (specialisations offered: foreign trade, economic policy and entrepreneurship strategy, European integration, seaborne trade, transportation and logistics, international market and global economy, economic diagnosing and functioning of enterprises),
- ◆ two years supplementary master degree studies at the specialisation: foreign trade, seaborne trade, European integration, economic policy and entrepreneurship strategy, transportation and logistics, economic diagnosing and functioning of enterprises – for people, who had finished economic vocational studies (licence in the profession of economist or economist bachelor degree),
- ◆ three years supplementary master degree at the specialisation of transportation and logistics and human resources economy for people who had finished non economic vocational studies.

Post graduate, extra-mural, studies are carried during one or two semesters and they concern:

- ◆ International business,
- ◆ Transportation and logistics,
- ◆ European integration, financial support and enterprises management,
- ◆ Entrepreneurship,
- ◆ European education.

Doctorate Studies are carried in the extra-mural system and they are created for people with high economic and non-economic education. They last 3 years. Doctorate studies are open for people with master diploma (including academic teachers of Gdansk University). The teaching programme includes methodology subjects, theory of economics, international economic relations, computer science, finance management and specialist subjects including the most advanced economic knowledge.

MBA interfaculty studies are designed for people with high economic and non-economic education. MBA studies last 4 semesters and are carried in the extra-mural system, in two days weekend modules. After completing, a graduate receives a diploma of postgraduate studies at the University of Gdansk according to the pattern approved by the Ministry of National Education. Additionally a graduate receives a MBA diploma of Gdansk University, signed also by the other Universities creating consortium, that is, University in Antwerp (RUCA), Copenhagen Business School and Fachhochschule fur Technik und Wirtschaft in Berlin.

B.2. Educational and social environment

Courses for students of Faculty of Economics take place in buildings situated in Sopot in 119/121 Armii Krajowej St. Well equipped computer laboratories are available for all students, computers in the hall of the building enable students training their information technology skills and Internet access. Main University Library is located in the proximity of the Faculty. Close to the Faculty, there are two students' hostels, no 7 and no 8. There is students' cafeteria in the Faculty building and a canteen in the hostel no 8. There is also a bookshop in the faculty building.

B.3. Obligatory division of the academic year

ACADEMIC YEAR 2002/2003			
<i>Winter semester</i>		<i>Summer semester</i>	
02.10	inauguration of academic year	17.02 - 01.06	courses

10.02 - 16.02	semester break	23.06 - 31.08	holidays
		01.09 - 21.09	corrective exam session

B.4. Rules of assigning ECTS credits.

ECTS system refers to subjects at all specialisations realised in the stationary system at the Faculty of Economics. Credits refer to all subjects included in the plan of studies. The ECTS credit system is based on the following assumptions:

- ◆ **credits refer to whole subjects**, not to the particular forms of courses, such as lectures, classes, laboratories, seminars (certain number of credits can be given to the part of the subject provided it lasts longer than one semester);
- ◆ number of ECTS credits necessary to pass the academic year **amounts to 60**;
- ◆ number of ECTS credits differs depending on the load of work the student must do to pass particular subject – subjects are assessed according to the following criteria: the number of hours, difficulty level (understood as students' effort), experience of academic staff preparing the information package and the status of the subject (obligatory and facultative);
- ◆ according to the number of classes and a difficulty level connected with passing subjects;
- ◆ more credits are given to obligatory subjects than to facultative;
- ◆ for each subject, which is finished with the exam, depending on the difficulties, the following credits are given: 0, 1 or 1,5 credit additionally;
- ◆ there are no credits for physical fitness training;
- ◆ there are less credits for foreign languages courses but the exam at the end of the course is specially promoted;
- ◆ lectures (15 hours) in foreign language with a written work at the end, are given 6 credits;
- ◆ master seminar received 30 credits, assuming high concentration of work in the last semester (10) due to the obligation of completing Master thesis and preparation to defence it.

B.4. Scale of grades

<i>ECTS grade</i>	<i>UG grade equivalent</i>	
A	very good	5,0
B	plus good	4,5
C	good	4,0
D	satisfactory plus	3,5
E	satisfactory	3,0
F	unsatisfactory	2,0

B.4. Proposals of lectures in foreign languages

The offer of lectures in foreign languages is addressed to foreign students who study at the Faculty of Economics within the framework of SOCRATES programme and for Polish students as well, in the academic year 2002/2003.
